MULTIPLICATION EVENT INVITATION

March 11 – 12, 2026 - Sinaia, Romania

We are pleased to invite you to participate in the multiplication event entitled

"By-products of the agri-food chain, nutritional composition, technological issues and sustainable improvement"

within the project

"Enhancement of Agro Food Chain Byproducts through Innovative and Sustainable Methods"

The event will present the results of the course "Innovative and sustainable methods for valuing the agri-food chain and their impact on human health and nutrition".

The event will address:

- Innovative and sustainable technologies for the improvement of by-products (fermentation, extrusion, green extraction methods)
- Chemical composition and bioactive potential of agri-food by-products
- In vitro and in vivo digestibility, bioaccessibility and bioavailability of bioactive compounds
- Food safety, quality control and regulatory considerations
- Development of safe and functional food products with nutritional and health impact
- Strengthening the skills of the green sector and promoting educational innovation

Through presentations by experts, case studies and an interactive Q&A session, the event aims to encourage collaboration, promote eco-friendly strategies and encourage sustainable consumption practices aligned with the principles of the circular economy.

 Location: Hotel International, Sinaia, Romania

 March 11, 2026: 15:00 – 19:00

March 12, 2026: 08:00 – 12:00

Your participation would contribute significantly to the exchange of knowledge and the development of innovative strategies that support a more sustainable and resilient agri-food sector.

Please confirm your attendance by **02.03.2026** at tehnich@rompan.ro.
